+1 (470) -641-9556 | kingsleyulinfun@gmail.com | GitHub: <https://github.com/JoeB1d0me>

SUMMARY

Computer Science junior with project experience in Python, Java, and full-stack development. Passionate about applying problem-solving and software development skills in collaborative environments.

EDUCATION

University of Georgia Franklin College of Arts and Sciences
Bachelor of Science, Computer Science | Athens, GA
May 2027
Major GPA: 3.70

Georgia State University
Bachelor of Science, Computer Science | Atlanta, GA
August 2023-July 2025
Major GPA: 3.83

RELEVANT COURSEWORK:

Principles of Computer Science I & II, CSCI 2510: Theoretical Foundations of Computer Science, CSCI 2720: Data Structures and Algorithms, CSCI 3320: System Level Programming

TECHNICAL SKILLS

Programming Languages: Python (fluent), Java (fluent), C (intermediate), beginner C# (Beginner)

Web & Frameworks: HTML, CSS, React (TSX), Next.js, SQL

Tools: Git, GitHub, Unity, Godot, JavaFX, Scene Builder

EXPERIENCE

Independent Math Tutor – Alpharetta, GA

Aug 2021 - Dec 2021

- Volunteered time to support peers with Algebra II and related coursework
- Conducted test review sessions to improve understanding of material and performance
- Provided study strategies and personalized learning tips to support academic success
- Helped students analyze and correct previous tests to identify learning gaps and improve mastery

PROJECTS AND INVOLVEMENT

DevDogs UGA – Community Resource Forum

Aug 2025 – Present

- Collaborating on a React forum project built with Next.js
- Member of the post-embedding team, responsible for implementing image embedding functionality in forum posts

UGA Game Builders Club – Twin Generals

Aug 2025 – Present

- Contributing to a turn-based strategy project built in Unity
- Implementing core battle logic, ensuring accurate handling of combat outcomes and mechanics

PantherDev Development Club (Georgia State University)

Aug 2023 – May 2025

- Collaborated with other undergraduate students in game development projects using Unity and Godot

Loads O' Money

Sep 2024 – Nov 2024

- Worked as a programmer on a top-down 2D shooter built in Godot
- Developed and integrated the player and NPC health systems, managing damage interactions between player/enemy attacks and their respective health values
- Project selected and showcased at the Fall 2024 CMII Student Showcase at Georgia State University

HONORS AND ACHIEVEMENTS

- *GSU Summer 2025 President's list*
- *GSU Spring 2025 Dean's list*
- *GSU Spring 2024 Dean's list*
- *GSU Fall 2024 President's list*
